

# HemCon® Bandages — Your ideal choice for hemostasis

- Quickly stops a range of bleeding—from oozing to severe arterial—providing staff time to get their patient to the next point of care
- Responds to bleeding by strongly adhering and sealing the wound when pressure is applied
- Provides an antibacterial barrier that may help to prevent infection
- Offers a hemostatic standard of care that can reduce the number of SKUs ordered and training needed

### Effective on the battlefield and credited with saving lives...

"...They (HemCon Bandages) have resulted in a survival rate that's better than anybody has ever achieved. Mortality rate has been reduced from 24% to 13%."

—Lieutenant General Louis Lillywhite, Surgeon General, UK Military  
UK Mirror, November 2007
